

Why choose to work with an RSSA®?

You may be surprised to learn that there are over 2,700 rules governing the Social Security program. Many financial professionals are not familiar enough with the rules and therefore, cannot provide authentic or trustworthy advice about your Social Security claiming decisions. Registered Social Security Analysts (RSSAs) have been trained in the basics and complexities of Social Security while meeting NARSSA's ongoing requirements, to be competent and confident when providing you with the support you need when making Social Security decisions. Get peace of mind knowing you are receiving all the money you deserve and are entitled to.

Working with an RSSA® is a key component to any retirement plan.

The information we received was very informative and helped us to make a better decision on our retirement as far as when to retire and what would be the best option for us. We appreciate the help we received and would recommend it to others.

Sharon P.
Client of an RSSA®

I appreciated the simplification of a complex decision regarding when to claim Social Security benefits. Working with an RSSA is very worth the money and time to understand your specific situation.

Michael S.
Client of an RSSA®

What makes an RSSA® different? A Registered Social Security Analyst...

- ✓ Has been trained to advise clients on all applicable Social Security rules that apply to a client's claiming decision
